

South Asia Forum (SAF)

The South Asia Forum (SAF) is a forum for researchers, students, and everyone else with an interest in South Asia. It is organized by Prof. Johannes Quack's chair at the ISEK - Social and Cultural Anthropology, Zurich University. During the three to four meetings per semester speakers will present their ongoing research projects. The forum will provide a framework to discuss contemporary research on South Asia, to reflect on developments in the region, and to connect with colleagues interested in this field. Everyone is cordially invited to join!

Please register with sandra.baernreuther@uzh.ch at least one week prior to the event.
