

Deregistration of an Examination in Social Anthropology due to an examination collision

If you are/were prevented from taking a written examination in Social Anthropology due to an examination collision and would like to avoid this counting as a failed attempt, you must submit a request for withdrawal in the app “my requests and invoices”. Please refer to the information provided by the [Office of Student Affairs](#).

Please have the overlap confirmed by the institute conducting the other examination in the lower part of this form, and inform the lecturers of the booked module and Mr Jan Patrick Heiss (janpatrick.heiss@uzh.ch) **immediately**. In addition, please upload this form as early as possible, **no later than five working days after the exam** in the student portal under “my requests and invoices”. The deregistration is not valid until you have received an approval of the request.

Modules with make-up exams: Approval of the request for a regular exam entitles you to take the make-up exam.

.....
